April 5-7, 2019  
Grand Targhee, WY

March 18, 2019

Greetings Intermountain Athletes!

By receiving this invitation, you are invited to the 6<sup>th</sup> annual IMD spring development project. Intermountain development projects are included in the US Ski and Snowboard pipeline leading to the Western Region, National Training Group, and the US Ski Team! You have self-selected into this system through your results and efforts over the past season.

Projects are offered in a progression of experiences over the duration of your junior racing career. This project introduces the athletes to the Intermountain development process with important instruction in skill development at the U14 level and continues through to race preparation for years to come.

The project is designed to focus on bringing the best IMD athletes and IMD coaches together to enhance their skill development and build friendships with fellow IMD athletes. We are excited to offer this opportunity to the top 15 athletes born in 2006 and top 5 born in 2007 per gender. Giving us a total of 40 outstanding IMD athletes.

We are excited to host this project at Grand Targhee April 5-7, 2019.

Please contact your direct coach and confirm your attendance by Friday March 22nd. We appreciate your efforts in providing a quick response as we need to confirm our final numbers for our lodging and meal plans.

Best regards,
